

Amendments

In the Claims:

Please amend claim 1 as follows:

Sub B1 1. (Amended) A method of applying a flowable substance to a web of wrapping material
for rod-shaped products, comprising the steps of:

Att confining the web to movement along a predetermined path;

directing at least one stream of flowable substance in an at least partially non-linear
manner toward one side of the web to vary the direction of propagation of the flowable
substance.
